

4. Importing Payments Processed in A!Online into an Auction! project

Applies to: *Organizations having a license for Auction! V4 with premium features enabled and a A!Online auction.*

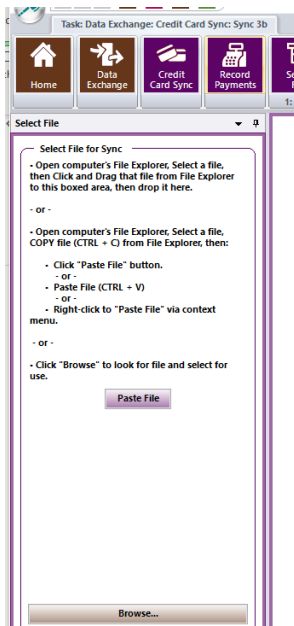

Background: In order to import the payments processed in an **A!Online** event into an **Auction! V4** project, you must have a license for **Auction! V4** with premium features enabled. After bringing in all the winning bids as set forth in the PDF entitled *Import Results from A!Online into Auction!* and after all the credit cards on file have been charged for the items in the **A!Online** platform as set forth in the pdf entitled *How to Process Credit card in A!Online*, you can bring in the results of those payments into the **Auction!** project. This allows you to have a complete **Auction!** project for reporting, creating statements for purchasers and planning for future events well after the online auction has ended. You must be an administrator in **A!Online** to do get the needed **A!Online** file.

Step by Step Instructions

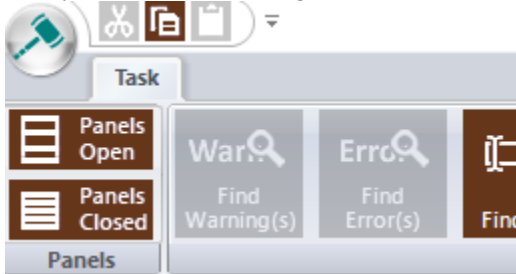

1. Log into **A!Online**: <https://admin.asimobile.net/>
2. In the **A!Online** tab click **Online Reports**.
3. In the list of reports, near the bottom choose **Online Payment History**.
4. Choose the link to download to **CSV** underneath the **Output** header.
5. **Save** the file onto your computer.

Now in Auction!

1. Open the **Auction!** Project.
2. Click **Data Exchange** on the ribbon.
3. Click **Credit Card Sync** on the ribbon.
4. Click **Record Payments** on the ribbon. This button is almost all the way to the right on the ribbon, just to the left of the Clear Qck Checkout button.

5. **Browse** for your modified **Online Payment History** spreadsheet.
6. On the left hand side under **Select Sync format** choose: **A!Online Payments Only**.
7. Click **Sync Now** on the ribbon.
8. You will see a log of the results. If the **Warning and Error** buttons on the ribbon are greyed out, you have no warnings or errors.

You can close the log. Your import was a success.
To continue in **Auction!** to print reports or documents, click **Home** and then choose the appropriate **Task** from the ribbon.
